Celebration of Republic Day

India celebrates its Republic Day on 26th of January with full zeal and enthusiasm all over the country. It is the day when the constitution of India came into effect.

This year also the Republic day was celebrated in our school with all solemnity and decorum. Teachers and students equally participated preparing for the Republic Day celebration in our school. The school ground was decorated with coloured flags, tracks were drawn with lime, and the tricolor display of paper cuts all round the ground and playing of Patriotic music made the whole atmosphere quiet buoyant, Flag hosting was done by the chief guest, followed by the national anthem, moving on to the inspection of six distinguished houses, done by the Chief guest, Principal sir and PET teacher Mr. Mehta, Soon after the inspection an elegant March Past was showcased by the troupes. Presentation of community song and patriotic dance added colour to the celebration of Republic Day. In the second half a very exciting programme, The **Youth Parliament**, was organized by the students of Social Science Club under the guidance of English teacher Mr. M. Karim and Social Science teacher Mr. Kaunain. The participants dressed in the costumes of different states presented a replica of the parliament in session. The programme was very well conducted by the students. It was appreciated by everyone present there. The day concluded with a feeling of patriotism in every Colians heart!

Nature

The trees, the plants and the shrubs
Are they in contact with us?
The Sky, the Clouds and the grounds
Are they still loud and proud?
The trees give us honey,
And we cut them for money.
The plants give us oxygen,
The return gift from us is pollution.
The sun gives us Sunshine,
And gets black smoke from us.
In the given Characteristics, I have found a mistake,
But not in the nature, in human's fate.

Monuments of India

Gol Gumbaz is the crypt of Mohammed Adil Shah, the Sultan of Bijapur. The magnificent monument was constructed by the architect Yagut of Dabul, (now Dahol, India) in the year 1656. It is constructed as per the Deccan architecture. Gol Gumbaz is one of the most significant monuments of India located in the state of Karnataka. The grand structure of the monument is composed of a cube on each side, which is capped by a dome in external diameter. Inside the gigantic dome, "Whispering gallery" runs around. These are named so because even the slightest of the sound can be heard on the other side due to the acoustics of the space. It is maintained by the Archaeological Survey of India (ASI).

BROTHER AND SISTER

PRINCIPAL'S PEN

A brilliant February!
 'cause it was bright and beautiful
 'cause the weather have been fine and friendly,
 cause we had occasions, more than one,
 to move out and form human chain in the green air,
 'cause we had a musical programme,
 'cause we had the Republic day functions...
 and lot many more to do.
 It has been really vibrant, to say the least.

The earth and sky are already turning,
 from winter to spring. Let Hope spring Eternal!

Colians Quote

Strong minds discuss ideas,
 average minds discuss events,
 weak minds discuss people.

ICCR Musical Concert (24/01/2020)

The most recent cultural programme hosted by our school was a musical concert, organized under the aegis of India Council of Cultural Relations (ICCR), gov. of India.

It was a Sitar recital programme by Sri Soumyajeet Paul, who was accompanied by Arijit Saha on tabla and Arup Nandi on electric guitar. The programme started by honouring the guest artists with a traditional shawl, a symbol of respect and gratitude, and the lightening of the ceremonial lamp. The programme was divided into two segments: first one was the recital of Indian classical music and the second one was all about a fusion of Indo-western music. As it is truly said that music is the portal to a different universe, it was proved by the talented musicians. The Colians, as always, held their patience and excitement throughout and seemed to enjoy the cultural programme. A mesmerizing musical journey was all we students needed to calm our minds. Marking the conclusion, a vote of thanks was proposed by the computer teacher Ms. Soni Pandey, and the rest of the classes continued as usual. What a magical and soothing experience it was!

Root Words

Root	Meaning	Example of Derivations
Form	Shape	Conformity– Correspondence in form, nature, or character; agreement, congruity, or accordance
Fract	Break	Fragile– easily destroyed or threatened. Fracture– A break in a hard material (bone etc)

Modern Indian Scientist

K.Sivan

Kailasavadivoo Sivan is an Indian Space Scientist and the chairperson of the Indian Space Research Organisation. He is popularly known as the 'Rocket Man' of India. Sivan worked on the design and development of launch vehicles for ISRO. Under his chairmanship, ISRO launched **Chandrayan 2**, the second mission to the moon on July 22, 2019. He was awarded with the Dr. A.P.J Abdul Kalam Award in 2019 and IEEE Sivan is now working on the new projects such as **Chandrayan-3, Gaganyaan** etc. Dr K. Sivan has recently become the hero and inspiration for many Indians around the globe. Dr Sivan has grown up from a humble farmer's son to ISRO Chief.

I Don't Believe It!

- ◆ India has the largest number of Vegetarians in the world.
- ◆ It is physically impossible for pigs to look up into the sky.
- ◆ A shark is the only known fish that can blink with both eyes.
- ◆ The giant squid has the largest eyes in the world.
- ◆ In Switzerland it is illegal to own just one guinea pig.
- ◆ A Shrimp's heart is in its head.
- ◆ India has the largest postal network in the world, having over 1,55,015 post office.
